

Fuel & Energy

CAPABILITY STATEMENT

Product Range

Liquefied Natural Gas (LNG)

We provide LNG, a critical resource for heating, cooking, and electricity generation.

Petroleum Products

This includes gasoline, diesel fuel, heating oil, and jet fuel.

Biofuels

We offer bioethanol and biodiesel, sustainable energy sources that help reduce greenhouse gas emissions.

Solar Panels and Accessories

Our range includes photovoltaic cells, inverters, mounting hardware, and solar batteries.

Wind Turbines and Accessories

We supply wind turbine generators, towers, rotor blades, and other components.

Energy Storage Systems

We provide cutting-edge solutions for energy storage, including lithium-ion batteries and flow batteries.

What We Do

As an integral player in the energy sector, GWG provides a comprehensive suite of fuels and energy solutions. We work with leading manufacturers and providers to deliver quality products that drive the global energy market.

NAICS Codes

- **221210** Natural Gas Distribution
- **324110** Petroleum Refineries
- **325193** Ethyl Alcohol Manufacturing
- **333414** Heating Equipment (except Warm Air Furnaces) Manufacturing
