

Medical Equipment & Diagnostic Tests

CAPABILITY STATEMENT

Product Range

Diagnostic Imaging Equipment: This includes MRI machines, CT scanners, ultrasound machines, X-ray machines, and nuclear medicine devices.

Laboratory Equipment: We offer microscopes, centrifuges, lab ovens, incubators, spectrophotometers, and other essential lab equipment.

Patient Monitoring Systems: Our range includes vital sign monitors, ECG machines, pulse oximeters, and blood pressure monitors.

Surgical Equipment: We provide surgical lasers, electrosurgical units, operating tables, and other surgical instruments.

Orthopedic Devices: This includes artificial joints, bone plates, screws, and prosthetic devices.

Respiratory Care Devices: We supply ventilators, nebulizers, oxygen concentrators, and CPAP devices.

Diagnostic Test Kits and Reagents: Our supply covers blood tests, immunoassay tests, molecular diagnostics, and more.

What We Do

Garrison Walker Group (GWG) is at the forefront of supplying medical equipment and diagnostic tests to healthcare institutions worldwide. We cater to a diverse set of needs, spanning from clinical laboratories, diagnostic centers, hospitals to research facilities.
